Local Area Coordination

Based in the local community as a single accessible point of contact supporting people facing difficulties; your Local Area Coordinator works alongside individuals of any age or ability, with families and their communities to help them, become stronger, more connected and resilient.

Your Local Area Coordinator will:

- take time to get to know people and build a trusting relationship.
- help people access relevant information, advice and support at the right time.
- enable individuals and their families to build and fulfil their vision of a good life.
- help people to identify and develop their strengths, skills, talents and abilities.
- assist individuals in building, developing and using their personal and local networks.
- give people a voice so they stay in control of services and resources.
- empower individuals to become part of and actively involved in a more welcoming, inclusive and supportive community.

Our aim is to help people change their lives for the better; improving their personal resilience, finding community solutions first and prevent them from reaching crisis point.

Freshwater, Yarmouth and Totland Area

Your Local Area Coordinator is Adam. If you know anyone in the area who would benefit from being introduced to him, please contact:

Adam Tucker
Local Area Coordinator
